in dispute in 2018
billion RUB

ARBITRATION PROCEDURE

232 cases resolved
under standard
arbitration procedure

21 cases resolved under expedited
arbitration procedure in accordance
with Chapter 7 of the Arbitration Rules

ECONOMIC SECTORS OF THE DISPUTES

GEOGRAPHY OF THE PARTIES

ONLINE SYSTEM OF RAC

The best solution to automatize legal functions

The Online System of Arbitration developed by the Russian Arbitration Center won the first prize at Skolkovo Legal Tech Leader 2017.

User-friendliness

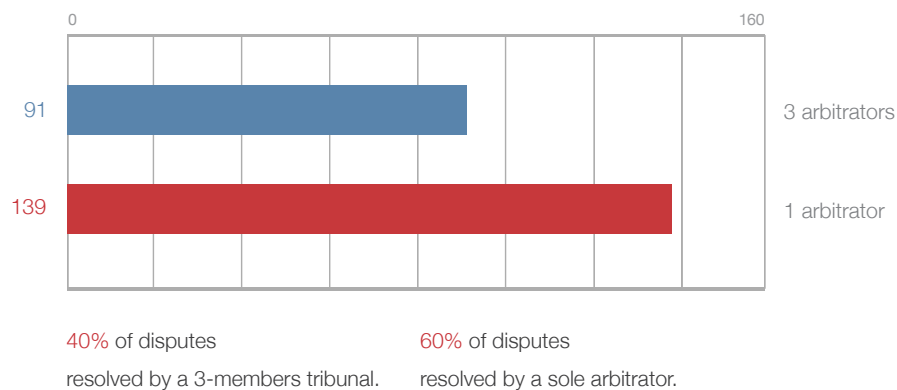

In 2018, the developers of the Online System of Arbitration received feedback from the users of the Online System of Arbitration – parties to arbitration and arbitrators. We took into account the feedback from the users and improved the availability of the Online System of Arbitration.

International expansion

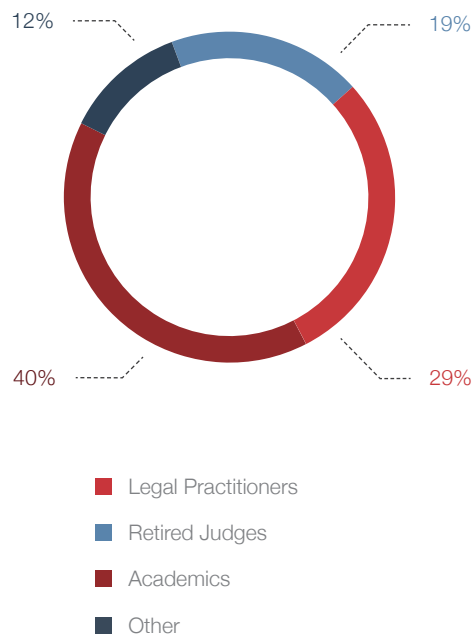

Our main aim in 2018 was the availability of the Online System of Arbitration not only for the Russian parties, but for the international users as well. We have officially launched the Online System of Arbitration in English.

ARBITRATORS OF THE RUSSIAN ARBITRATION CENTER

PROFESSIONAL ACTIVITIES OF ARBITRATORS

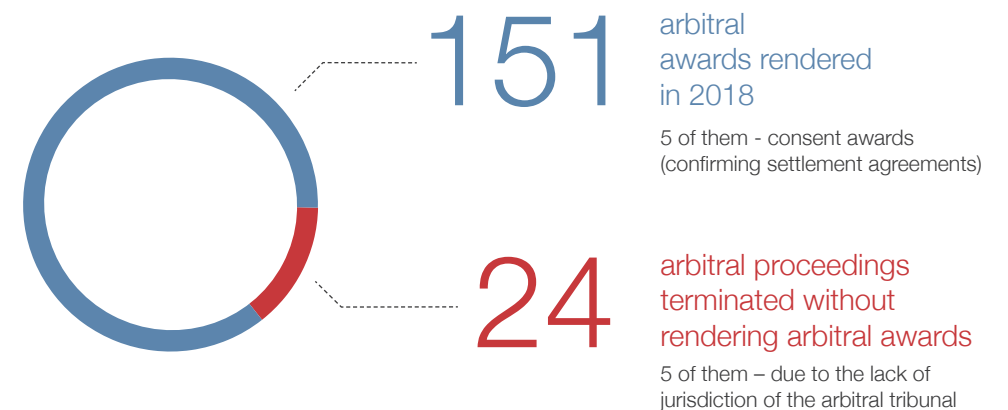

Recommended List of Arbitrators and Databases of the RAC include leading Russian and international lawyers, including legal consultants, attorneys, academics and retired judges.

During the appointment process, the Board takes into account primarily the sphere of professional interests of candidates and their expertise in the issues arising in the dispute.

GENDER OF ARBITRATORS

Among arbitrators appointed in 2018, 37% are female arbitrators and 63% – male arbitrators.

In 2017, the Russian Arbitration Center has become the first Russian permanent arbitral institution to join the international initiative **Equal Representation in Arbitration Pledge**, aimed at the promotion of gender balance and supporting female legal practitioners in international arbitration.
